FREW & CAMPBELL Office: Nos. 25 and 27 Fourteenth Street SATURDAY MORNING, FEBRUARY IS

To-MORROW, the 20th, will be the anniversary of the highest water in the grea flood of 1832.

Agitation in Germany has produced a least one good, result. It has excited in the mind of Emperor William an interest in the welfare of the workingman.

Mexico has taken the first steps toward inviting immigration from the United States. President Gonzales has made a grant of 1,500 leagues of land on which to colonize one thousand families who are ready to move in.

THEY are in want of a man for Mayor up at Steubenville. The kind of a man want ed is set forth as follows:

"Oh God I for a man with heart, head, hand, Whatever they call him what care I, Aristocrat, democrat, autocrat—one Who can rule, is henest, and dare not lie." Any person knowing a man around Steubenville answering to this description will please send in his name to Mr. Allison of the Press.

Twenty years ago, this month, Abrahan Lincoln passed through Steubenville on his way to Washington to be inaugurated President. He was met at the depot by an'immense concourse of people, whom he addressed for about five minutes. We observe that out of the thirty-four gentlemen who composed the reception commit tee twenty-three are now dead. So great a change does twenty years make.

THE consumption of "spirits" (spirituous liquors) is officially reported to be dimin ishing in England, caused, as is alleged by an increase in the use of light wines. The consumption of spirits in 1878 was 8,700,000 gallons; in 1879, 8,000,000 gallons; in 1880 the figures for the first nine months indicate that it will be 6,700,000 gallons. The full figures relating to wine consumption are not at hand, but the use of French wines is increasing at the rate of 400,000 gallons a year, though, at the same time this increase is met by a decrease of the same amount in the use of Portugese and Spanish wines.

Chear life insurance. Twenty-five cents will buy a box of Dr. Tutt's Pills, and they will restore the functions of the liver, stomach and bowels—the sources from which nearly every disease originates. If these organs act well a long and healthy life is assured. Make the investment, it will be a profitable one.

Manufacturing Notes.

Whether or not the prices of glassware bring any profit to the manufacturers, all

the factories keep running right along.
At present there are quite a number of representatives of firms in other cities here looking around for new novelties in the glass tableware trade. The prospects are that there will be a lively trade during the ing spring. essrs. Totten & Co. have received their

Mesars. Totten & Co. have received their sixth order from Ureat Britain (this time from Scotland) for nail machines for cutting steel nails. They are also having an increased demand for crushers and combined crushers, and pulverizers for grinding limestone for fertilizing and for all kinds of mining operations.

Zug & Co. are running double turn, and yesterday they started up thirty of their machines in the nail department which have lain idle for several years. Within the past three weeks this firm has noticed a perceptible increase in business, and the

also consider that the advance in metal will have a tendency to stiffen up prices. Mackintosh, Hemphill & Co. are full of orders for machinery at present. They have orders on hand from Colorado to Massachusetts for Bessemer plants. They have been compelled to send orders elsewhere of late on account of the great pressure of business. They have recently received several large orders for Bessemer plants from Chattanooga, Tenn., and are also working on orders for the Edgar Thomson Steel works.

There is no increase yet in anyway

There is no increase yet in anyway noticeable in foundry orders. Up to the noticeable in foundry orders. Up to the beginning of the new year every foundry in the city was running to its utmost capacity, but since then there has not been any particular rues. Nearly all the foundry men in the city, however, anticipate a big rush of orders as soon as spring fairly opens, and in many establishments enlarged facilities have been prepared in anticipation of the increase. ion of the increase

Row to Secure Health.

It seems strange that anyone will suffer from the many derangements brought on by an impure condition of the blood, when Boovill's Earasparilla and Stillingia, or Blood and Liver Syrup will reastor perfect health to the physical organization. It is indeed a strengthening syrup, pleasant to take, and has proven itself to be the best blood purifier ever discovered, effectually curring scrofula, syphilith disorders, weakness of the kidneys, erysiplas, malaria, all nervous disorders and debility, billious complaints and all diseases indicating an impure condition of the blood, liver, kidneys, stomach, skin, etc. It corrects indigestion. A single bottle will prove to you its merits as a health renewer, for it acts like a charm, especially when the complaint is of an exhaustive nature, having a tendency to lessen the natural vigor of the brain and nervous system.

A Frankfort, Hy., Physician Writes: Some months ago the daughter of one our prominent citizens was pronounced opeless consumptive. She was very nuch reduced in flesh, terrible cough, her much reduced in flesh, terrible cough, her life gradually wasting away. I recommended her to use "Dr. Swayne's Compound Syrup of Wild Cherry," which she did. In a short time she was free from all cough and other symptoms, and is now rosy and healthy. Price 25 cents and \$1.00 a bottle, or six bottles for \$5. The large size is the most economical. Prepared only by Dr. Swayne & Son, Philadelphia, Sold by druggists in Wheeling and elsewhere.

"A End Cold or Distressing Cough." Dry, parched, sore throat, phneumonia, bronchial and asthmatic attacks, weakened and debilitated state of the system, all these dangerous symptoms are cured by 'Dr. Swayne's Compound Syrup of Wild Cherry." The first dose gives relief, and the worst cough and sore lungs yield to its healing troperties. An occasional dose of healing properties. An occasional dose of "Swayne's Pills" should be taken to keep the bowles free. They are excellent for torpid liver and bilious complaints.

Rescued frees Death.

The following state ment of William J Coughlin, of Somerville, Mass., is so remarkable that we beg to sak for the attention of our readers. He says: "In the fall of 1876 I was taken with a violent bleeding of the lungs, followed by a severe cough. I soon began to loose my appetite and fiesh. I was so weak at one time that I could not leave my bed. In the summer of 1877 I was admitted to the City Hospital. While there the doctors said I had a hole in my left lung as big as a half dollar. I expanied over a hundred dollars in doctors and medicines. I was so far gone at one time a report went around that I was dead. I gave up hope, but a friend told me of Dr. William Hall's Balsam for the Lungs. I laughed at my friends, thinking that my case was incurable, but I got a bottle to satisfy them, when to my surprise and gratification I commenced to feel better. My hope, once dead, began to revive, and to-day I feel in better spirits than I have for the past three years.

"I write this hoping you will publish it, so that every one inflicted with Diseased Lungs will be induced to take Dr. Wm. Hall's Balsam for the Lungs, and be convinced that the summer of the summer o
